

THE SECURITY YOU NEED. THE COMPLIANCE TO SUCCEED.

Your partner to simplify the path to security and compliance
for a more secure world.

Why BARR Advisory

We Know the Cloud

BARR specializes in cybersecurity for companies with high-value information in cloud environments like AWS, Microsoft Azure, and Google Cloud. Businesses looking for the accessibility of a boutique firm with the tools and expertise of a global consulting firm will find a partner in BARR.

What Sets BARR Apart

Perspective

We understand the challenges our clients face every day—because we faced them when we sat on your side of the table. BARR has supported hundreds of SaaS and enterprise-level clients, so we offer solutions based on experience, not theories.

Connections

BARR uses its global network of providers to connect you with best-fit experts. And these go far beyond a simple referral. These partners are integrated into our own tools, processes, and services.

Human First Approach

BARR brings human-centered thinking to cybersecurity. We educate and empower your people without using scare tactics. Instead, we use real talk (not tech talk) to raise awareness, change behavior, and embed best practices into your company culture.

OUR CLIENTS AND CAPABILITIES

Assurance for You,
Confidence for Your Customers

With a nearly **100% client retention rate**, we serve innovative technology and cloud service providers in the most regulated industries: financial services, healthcare, and government.

Clients report a **70% reduction** in customer compliance questionnaires.

Clients report **75% less time spent** on internal resources needed to pass an audit.

BARR clients can count on competitive, fixed rates and **unparalleled service**.

“Thoughtful and rigorous,
we're glad we chose
to work with BARR.”

 **CONVICTIONAL**
