[Company Name] Achieves CMMC Level 2 Certification After Successful C3PAO Assessment

[City, State]—[Date]—[Company Name] today announced that it has achieved Cybersecurity Maturity Model Certification (CMMC) Level 2 certification following an independent assessment conducted by a Certified CMMC Third-Party Assessor Organization (C3PAO).

The assessment was performed by [BARR Advisory](#), a global cybersecurity firm and authorized C3PAO that helps organizations in highly regulated industries build trust and resilience through cybersecurity compliance.

“Achieving CMMC Level 2 certification marks a significant milestone for [COMPANY NAME],” said [Company Representative Name and Title]. “We hope this achievement bolsters confidence in our security practices and assures our customers and partners that safeguarding sensitive data is a top priority at [Company Name].”

CMMC is a cybersecurity framework developed by the U.S. Department of War that outlines security requirements for organizations handling Federal Contract Information (FCI) and Controlled Unclassified Information (CUI). The framework is designed to strengthen cybersecurity across the Defense Industrial Base (DIB) and protect sensitive government information from evolving threats.

As an authorized C3PAO, BARR Advisory conducted a comprehensive assessment of [Company Name]’s environment, including the design and implementation of systems and controls intended to protect sensitive information. As a result of this assessment, [Company Name] has been awarded CMMC Level 2 certification.
